

Dear French Connection Patrons

It's with a heavy heart that I have to inform you that we have taken the tough decision to close French Connection Bistro with immediate effect. We suspect that this will be for at least the next two weeks. The health and well-being of our staff and guests is our number one priority and with the unprecedented effect of COVID-19 wreaking havoc worldwide, it is the socially responsible thing to do.

We are all in uncharted territory, but the hospitality industry is surely one of the worst affected sectors of all. We hope the drastic actions implemented by the President have a positive effect on saving lives and stopping the rapid spread of this virus in our wonderful country.

A massive thank you to our entire team for reacting so swiftly to all the extended measures put in place to keep our patrons and themselves safe at all times. We look forward to bouncing back very soon, offering you the same quality Bistro offering we have given you over the last 18 years.

Please continue to support our industry. It is a massive tourism asset to our town and there are so many families whose livelihoods depend on it. We will be monitoring any news coming from Government and the Health Department and will update details on our social media platforms.

We hope to welcome you back very soon.

Matthew Gordon  
Chef Patron
